

ALUMINUM PROCESSING

DETERGENTS / DEGREASERS

Derkemp Mat FL: concentrated neutral liquid detergent for automatic washing including ultrasonic washing machine.

Derkemp Mat N: Neutral liquid detergent for automatic washing including ultrasonic washing machine.

Dermat 09: powder detergent for automatic washing including ultrasonic washing machine.

Derkemp CH: multi-purpose concentrated detergent.

Derkemp Mat F / 2: alkaline detergent for organic encrustation aluminium safe.

D-OX 70: acid brightening detergent.

PICKLING

Metaldec AI: high concentration product pickling by immersion. Chemical satin finish.

Metaldec AI2: pickling agent for immersion.

PRE-PAINTING and painting

Kemphos S: pre-painting phosphating with roughness increasing action

Kemphos S2: pre-painting phosphating agent

Kemphos AD WET: wetting additive for phosphating processes

Kemphos Tech: passivating no rinse for the final phase of pre-painting

Convert Zr: nanotechnological pre-painting treatment without chrome

Kemperstrip A: cleaner for spray guns based on DCM

PAINT STRIPPERS

Kemperstrip E: Two-component paint remover with high acid efficacy based on DCM

Kemperstrip Avio: Two-component paint remover without phenol (MIL -R-819036 Type III Class 2)

Kemperstrip T2: alkaline immersion paint strippers without phenol and DCM

Kemperstrip T: Phenol and DCM free immersion paint stripper (MIL-R-83936C).

Kemperstrip GEL: Alkaline gel paint stripper (MIL-R-81294D Type I Class 2 °).

Kemperstrip GEL SFA: Acid gel stripper (MIL-R-81903A Type III Class 2)

Kemperstrip GEL SFA LC: Acid gel-based paint remover (MIL-R-81903A Type III Class 2)

PROCESS DEGREASING SOLVENTS

Kempersolv 24: quick evaporation solvent chlorinated free

Kempersolv 42: low-odor solvent with medium evaporation, chlorinated free solvent. Specification MIL PRF-680C (Type I).

Kempersolv 60: odorless solvent with controlled evaporation, free of chlorinated. Specification MIL PRF-680C (Type II).

Kempersolv 73: odorless solvent, low volatility, chlorinated free

LUBRICANTS-COOLER

Lubrint AI: whole cut oil.

Lubrint AI G: whole cutting oil with reduced residuality and easy elimination

Lubro Semisint Q / S: semi-synthetic suitable for light alloys use intensive

Lubro Sint LF: high performance lubricant-cooler free of mineral oil

Lubro Cut: oils for tapping, threading, various viscosities, both liquid and spray.

FINISHING PRODUCT and maintenance

Format Rapid: no-rinse cleansing detergent

Kempro Clean: removal of markers, pens and graffiti

Format Glass Spray: spray brightening detergent.

ALUMINUM PROCESSING

PLANT MAINTENANCE

De Foam: alkaline floor cleaner.

DE 30: soda free detergent for floors and plants.

Desorb: series of products for dispersed absorption, available both in loose form and in tubular, pillows and handkerchiefs.

Descal Light: liquid auto buffered acid descaler for lines and circuits

Descalit: innovative descaler acid powder with very low aggressiveness on metals

Forkal : complete line of products for industrial process water treatment and steam generators

HANDWASH

Nuvis: liquid industrial handwash.

Nuvis White: gel with microspheres with softening action.

Nuvis Green: gel for very heavy dirt.
