

DAIRY

CLEANING AND HYGIENE IN THE ENVIRONMENTS

Floors	DE Foam Biosan Clor	1-5 %	1-5%, Periodic or occasional washing of floors Manual use with mop with low pressure dispensers or floor cleaning machines
Workplaces	Biosan Clorfoam Biosan Clorgel	4-5%	4-5-%, Sanitizing washing of floors, walls, machines and work equipment with special self-dosing equipment.
Acid wash	Descal Acid Foam	5%	5%, Removal of limescale from walls, floors and machinery. with appropriate self-dosing equipment.
Sanitizers and disinfectants	Biosan PBG	1-5%	1-5%, All surfaces not in contact with food with low-pressure sprayers.

CLEANING MACHINERY

<u>Washing machine parts that can not be dismantled</u>	Descal CIP Dermilk G Dermilk Z	1-5 %	Alkaline washing by immersion, recycling, CIP of closed systems, storage tanks.
	Biosan Acid	0.1-1 %	For immersion, sprayed for 5-10min, to obtain surface sanitation.
	Descal Light A Descalit	3-5 %	Acid washing in invaded ,to recycle, CIP.
<u>Manual washing removable parts</u>	Derkemp Food Dermilk Z	1-5 %	Solution with hot water (30 ° -40 ° C), immerse the pieces and rub.

PERSONAL HYGIENE

<u>Handwash</u>	Nuvis San	-	Handwash with sanitizing action
	Nuvis Wash	-	Sanitizing gel handwash without rinse
	Nuvis	-	Industrial liquid handwash
	Nuvis White	-	Pumpable gel handwash with microspheres
<u>Boots: hygiene cleaning</u>	Derkemp CH	5-10 %	For immersion, sprayed for relatively short times (5-10 min).
	Biosan PBG 2	1-5 %	With low pressure sprayers.

DAIRY

STEAM BOILERS

Forkal Boiler	Antidepositant, antiscaling, non-volatile degasifying product.
Forkal V	Alkalizing product, volatile degasifier.
Forkal C	Complete antidepositant product, alkalizing degasifier the condensation.

CLEANING AND SANITATION OF MEANS OF TRANSPORT

External	DE 30 Derkemp Food	1-3%	Flush at low pressure, brush and then rinse better with high pressure.
Internal	Dermilk G	0,5-1%	Remove the coarse residues, spray the surfaces with the appropriate equipment, leave in contact for not less than 15 min.
	Descal Light A Dermilk SS	3-5%	Periodically for the removal of calcareous residues, spray the solution on the walls using the appropriate equipment.

COOLING TOWERS / FRIDGE CIRCUITS

Forkal Plus	Antiscaling, defanging, corrosion inhibitor for closed circuits product
Forkal Tower	Antiscaling product for cooling towers.
Biosan Antialghe Special	Sanitizer for cooling waters with a biodispersant action.
Biosan Antislime	Sanitizing agent for cooling water with total and complete non-oxidizing action.
Antifreez Eco	Biodegradable antifreeze with low toxicity.

LUBRICATION

Vectis Food Vectis Food Spray (NSF)	Colorless and odorless synthetic lubricant
Grease Food Grease Food spray (NSF)	Colorless and odorless synthetic grease
Dimet 10 Spray (NSF)	Silicone release agent

Tail Control	Bollard for external use against pig cannibalism, for companies with internal pig breeding.
