

Kemper **BIOSAN RAPID PROFUMATO**

Polishing detergent for surfaces

FEATURES

It is a new kind of formulation able to degrease, sanitize and polish surfaces in: marble, granite, ceramic, porcelain stoneware, parquet, brass, aluminum, steel and plastic laminate.

Its solutions penetrate into superficial porosity and effectively dissolve the dirt present.

It is easily soluble in water, forms a little foam that quickly knocks and leaves a pleasing fragrance that diffuses in the environment.

It isn't corrosive to marble and enamel ceramics because it has a neutral pH; it is very well suited for the cleaning of sanitary facilities and taps. The product can also be used with scrubbers and washer dryer.

Ideal for floors of:

- churches
- museums
- reception rooms
- supermarkets
- hotels and restaurants
- offices
- airports
- hospitals
- schools and gyms

CHEMICAL-PHYSICAL DATA

Physcial state	: liquid
Color	: green
Miscibility with water	: total
Density _(20°C)	: 0.986 Kg/lt
Viscosity _(20°C)	: 20 cPa.s
pH _(sol. 1%)	: 7,0
Perfume	: mint

HOW TO USE

Prepare aqueous solutions with a concentration of 3-5% (30-50 g / liter).

Apply with a cloth or with a damp sponge; at the end let it dry.

When used with floor scrubbers, prepare solutions having a concentration up to 2%.
