

FLOOR GREEN

Pine oil detergent

FEATURES

FLOOR GREEN is a multi-purpose detergent containing pine oil and a new generation of high biodegradable surfactants

Thanks to these components, the product is more easily diluted in water and more extensible with the duster.

Remove any kind of dirt, especially the linoleum marks.

During its use, it releases in the environment an intense scent to the balsamic note.

It is ideal for any type of flooring but is recommended for plastic and linoleum in particular.

Physical state	: gel, trasparente
Colore	: green
Solub. in water	: total
pH _(sol. 4%)	: 8

Ideal for: clinics, outpatient clinics, laboratories, analytical laboratories, nursing homes, hospices, offices, waiting rooms, hotels, gyms, saunas and schools.

HOW TO USE

Dilute the product in cold water by 2-4% for every 10 liters of water (one bucket). Pass with a duster and let it dry.

For floor washing machines, use a 2% solution every 5 liters of water.

It is recommended not to exceed the recommended concentrations as there is the formation of a residual patina

Contains non-ionic biodegradable surfactants over 90%.
