

NUVIS GEL

Alcoholic gel hands

CHARACTERISTICS

Hydroalcoholic gel, for hands to use without water.

Its use allows for a reduction in skin bacterial charge by eliminating the risk of cross contamination in environments frequented by the public.

The product has important features:

- **High hygienic effectiveness**
- **Alcohol content greater than 60%**
- **Quick hygiene**
- **Dries fast**
- **Leave your hands soft and fresh.**
- **No rinse needed**

The product is packaged in a 500 ml bottle, complete with a dosing pump that can deliver the required amount of product for complete and safe hygiene.

NUVIS GEL is a cosmetic, and its dossier is kept at Kemper Srl where the production is located.

Its composition complies with the requirements of the **GENERAL RECOMMENDATIONS FOR THE REDUCTION OF THE EXPOSED RISK OF INFLUENZA PANDEMICIA IN WORK PLACES** issued on 11/09/2009 by the Ministry of Labor, Health and Social Policies.

The **NUVIS GEL** is not in "handbag" format but in a suitable box to a fixed location:

- **restaurant,**
- **hotels,**
- **canteens,**
- **bar,**
- **colleges,**
- **communities,**
- **religious communities,**
- **various associations,**
- **gyms,**
- **fitness centers,**

- **shops.**
