STREAM IGIENIC

Room sanitizer, deodorant

FEATURES

Special formula, available in different versions, specifically conceived to deodorize and sanitize environments. The product allows obtaining three synergic effects simultaneously:

- ✓ **Deodorizing.** Thanks to the sanitizing action, it eliminates the source of bad odours.
- ✓ **Scenting.** Long-lasting pleasant scent in the environment.
- ✓ **Bacteriostatic.** It is particularly recommended for decontaminating humidifying grids of air conditioners and fan coils.
- ✓ It is free of alcohol and aggressive substances, and it is easy to apply
- ✓ The sanitizing substances contained in the product are innovative, hazard free at the concentration of use, and therefore particularly suitable to be used in work environments, offices, public centres, homes, etc...
- ✓ It does not require dilution because it is ready for use.
- ✓ Ideal for: hotels, restaurants, offices, meeting rooms, washrooms, saunas, gymnasiums, retirement homes, clinics, funeral homes, and motor homes (campers, buses, lorries, railway coaches, etc.)

PHYSICAL- CHEMICAL DATA

Physical state: liquid

Density (20°C): 0.998 kg/lit

Solubility in water: 100%

Flammability: non-flammable

pH (1% sol.): 7

HOW TO USE

Air conditioning systems: After cleaning split units, spray the product directly on the vaporizer along its entire length. Spray also on filters. Wait at least five minutes before enabling the system. The residual sanitizer will confer a bacteriostatic effect to the unit, without being released into environment. The air will be instead pleasantly scented.

Environment: Apply the specific nozzle on the bottle, adjust it so that the product is sprayed as finely as possible. Spray upward, moving from the back of the room to the exit. Do not spray the product directly on walls or different fabrics.

SCENTS AND PACKAGING

- ✓ **STREAM IGIENIC CLASSIC:** tuberose
- ✓ **STREAM IGIENIC FRUIT:** peach
- ✓ **STREAM IGIENIC MUSK:** musk
